

AI Film Making Course Content

1. Introduction to AI Film Making
2. Story, Script and Screenplay with AI (Hands on)
3. Cinematography and Shot Design
4. Concept Art and Storyboarding (Hands on)
5. AI Video Generation (Hands on)
6. AI Voice, Dubbing and Lip Sync (Hands on)
7. Music, Sound Design and Audio Mixing (Hands on)
8. Editing, Color and Visual Effects (Hands on)
9. Production Planning and Workflow
10. Ethics, Copyright, Monetization and Publishing
11. Capstone Projects

Introduction to AI Film Making

- Film Making Workflow from Idea to Release
- Overview of AI Tools for Images, Video, Voice and Music
- Career Paths: AI Film Maker, Content Creator, Video Editor

Story, Script and Screenplay with AI (Hands on)

- Idea Development, Logline and Three-Act Structure
- Screenplay Format, Characters and Dialogue
- Using AI Assistants for Brainstorming and Drafting Scripts

Cinematography and Shot Design

- Shot Sizes, Camera Angles, Camera Movement and Lens Language
- Lighting, Composition and Color Mood
- Writing Cinematic Prompts and Shot Lists

Concept Art and Storyboarding (Hands on)

- Visual Style, Mood Boards and Look Development
- Text-to-Image Tools for Concept Art and Storyboards
- Character Design and Keeping Characters Consistent

AI Video Generation (Hands on)

- Text-to-Video and Image-to-Video Workflows
- Camera Control, Motion, Start and End Frames
- Scene Continuity, Re-Generation and Quality Control

AI Voice, Dubbing and Lip Sync (Hands on)

- Voice Generation, Voice Cloning Ethics and Narration
- Dialogue, Multi-Language Dubbing and Lip Sync
- Cleaning and Mixing Voice Tracks

Music, Sound Design and Audio Mixing (Hands on)

- AI Music Generation and Background Score
- Sound Effects, Ambience and Foley Basics
- Audio Mixing and Loudness for Release

Editing, Color and Visual Effects (Hands on)

- Editing Fundamentals in DaVinci Resolve, Premiere Pro or CapCut
- Color Correction, Grading and Upscaling
- Cleanup, Compositing and Simple VFX with AI Tools

Production Planning and Workflow

- Budget, Scheduling and Asset Management
- Combining AI Footage with Live Action; Short Film, Ad, Music Video and Reel Formats

Ethics, Copyright, Monetization and Publishing

- Copyright, Licensing, Consent, Disclosure and Avoiding Deepfake Misuse
- Earning from YouTube, Brand Work and Freelance Projects
- Publishing on YouTube and Instagram, Thumbnails, Trailers, Festival Basics

Capstone Projects

- AI Short Film: Script to Final Edit
- Brand Advertisement or Music Video
- Portfolio Showreel and Final Screening
